

Yamaha XTR 660 2004

ASSEMBLY INSTRUCTIONS FOR THE CRD COLLECTOR

REF.: 7125 – MODEL: Yamaha XTR 660 2004

- Remove the original collectors and silencers
- Recover the exhaust seals from the cylinder head or fit new seals if they are damaged
- For the assembly, use grease to glue the seals
- Position the CRD collectors and fasten them to the cylinder head, then put the rear fastening screws in place
- Tighten them onto the cylinder head and then tighten the rear fastenings
- If necessary, replace the exhaust seals in the silencers' housings
- Place these seals in the silencers
- Slide the silencers onto the collectors and fasten them using the original screws
- Tighten the clamps
- Use a threadlocking compound for all screw assemblies

All the parts have been inspected before dispatch. We guarantee only parts that may prove defective before installation. As we do not control the mounting of our products, we cannot be held responsible for personal injuries or technical damage resulting from a wrong assembly carried out by yourself or a third party.
